**Fabric Requirement Calculation:**  
 Based on a 54" fabric width  
 Length or drop: Use the finished panel length + 12"  
 Add 4" fabric for optional 2" finished header  
 For each additional width, multiply the above calculation by the number of widths.  
 Example: 72" width x 68" length with 2" header  
 68 (panel length) + 12 = 80"  
 80 + 4 (optional header) = 84"  
 84 x 2 (2 panel widths) = 168 inches or 4.7 yards
